

Task: 4

Create a Trello board with project boards, user stories, task assignments, and sprint workflows to demonstrate Agile project management and team collaboration.

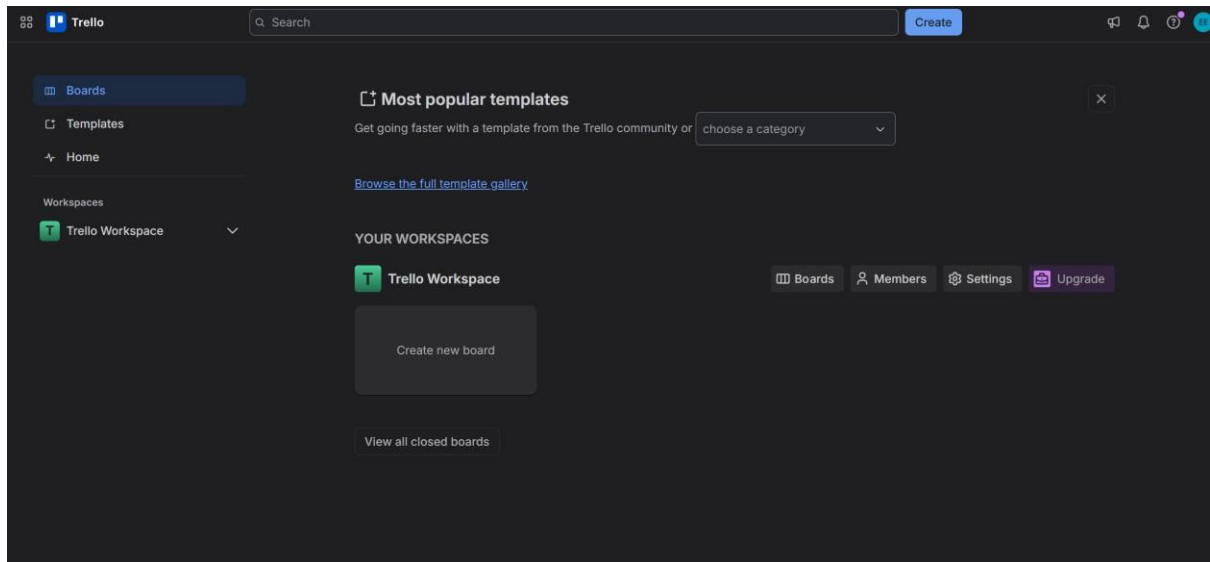

K. Aditya (2420030491)

Step 1: Open the Trello website

🔗 Official website: <https://trello.com>

Step 2: Create a free account

- Click Sign up.
- You can use Google account (easiest) or email.
- After signing in, Trello will open your Home page.

Step 3: Create your first Workspace

A Workspace is like a folder that contains multiple boards.

Do this

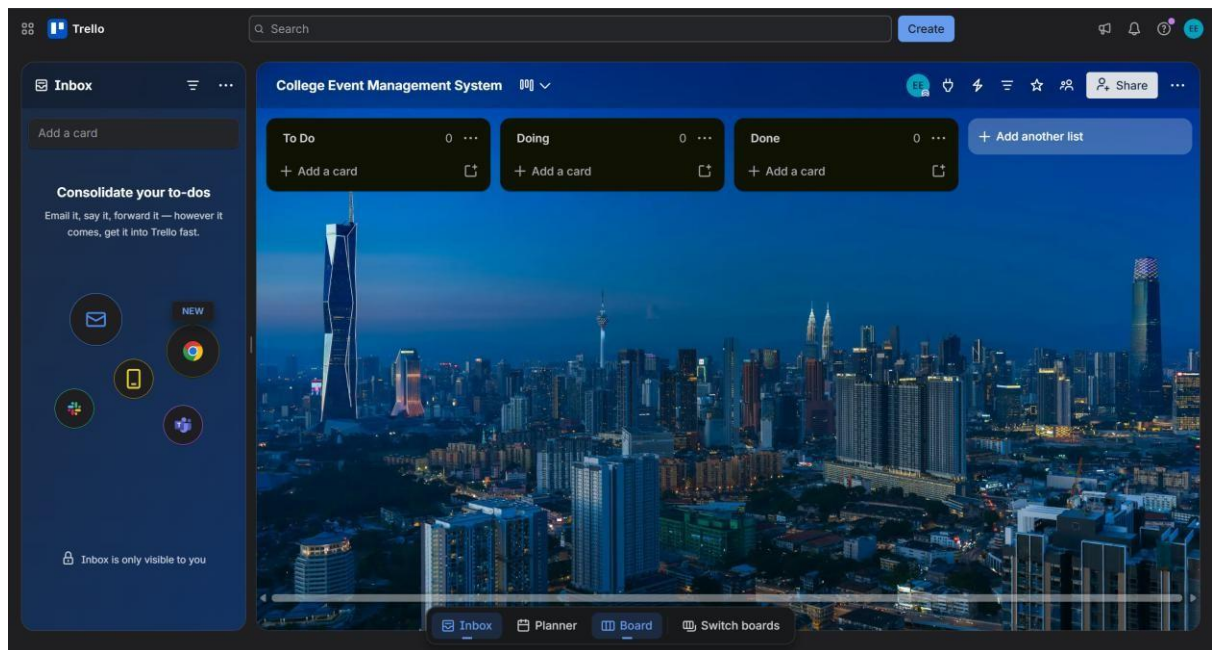

- Click Create (top-right).
- Select Create Workspace.
- Enter:
 - Workspace name: Agile Case Study
 - Type: Education
- Click Continue.

Step 4: Create the Project Board

Now create the board where all Agile activities will happen.

- Board name: College Event Management System
- Workspace: Agile Case Study
- Visibility: Workspace

Click Create.

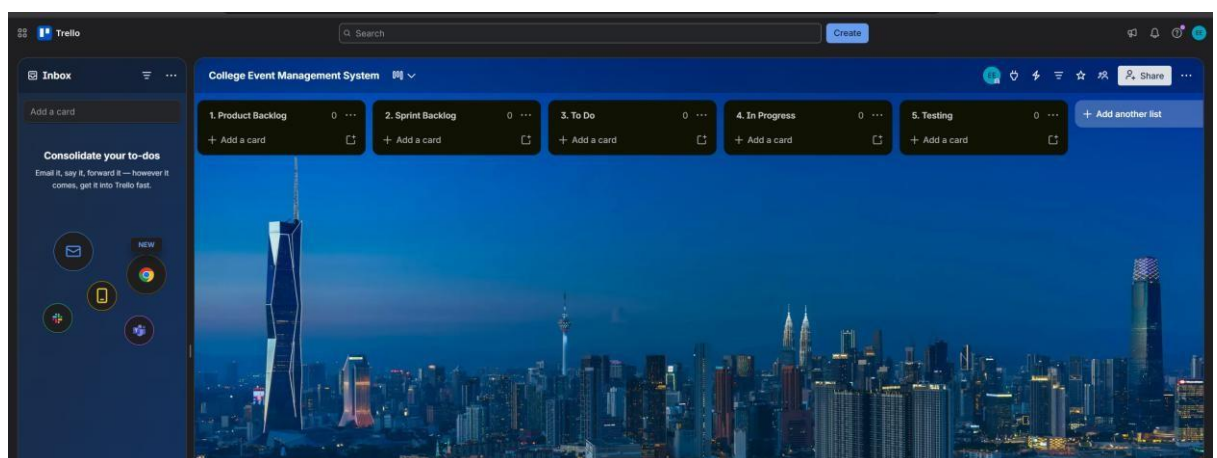

Step 5: Create Agile workflow lists

These lists represent the sprint workflow.

Create these lists in order

1. Product Backlog
2. Sprint Backlog
3. To Do
4. In Progress
5. Testing
6. Done

Step 6: Add User Stories (important for your assignment)

Click Add a card under Product Backlog and create these cards.

User stories

US-01: User Registration

As a student, I want to register for the event so that I can participate.

US-01: User Registration

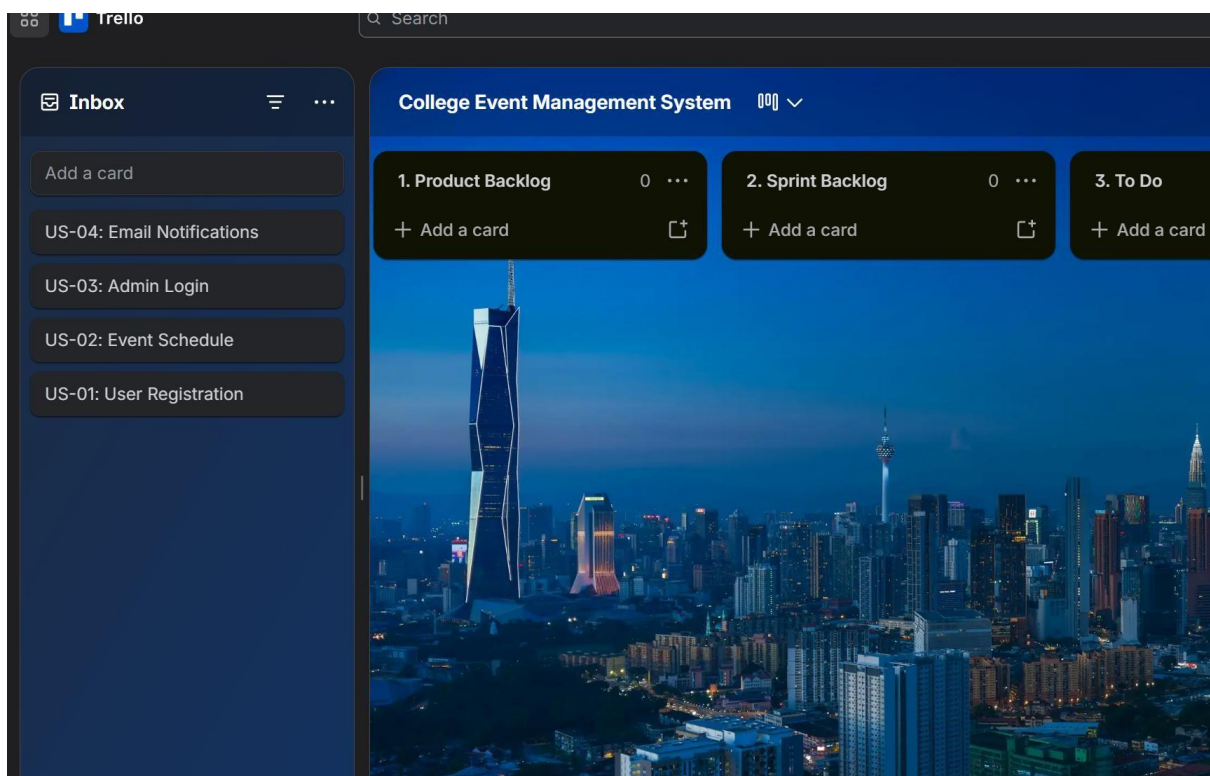

As a participant, I want to view the event schedule so that I can attend sessions on time.

US-01: User Registration

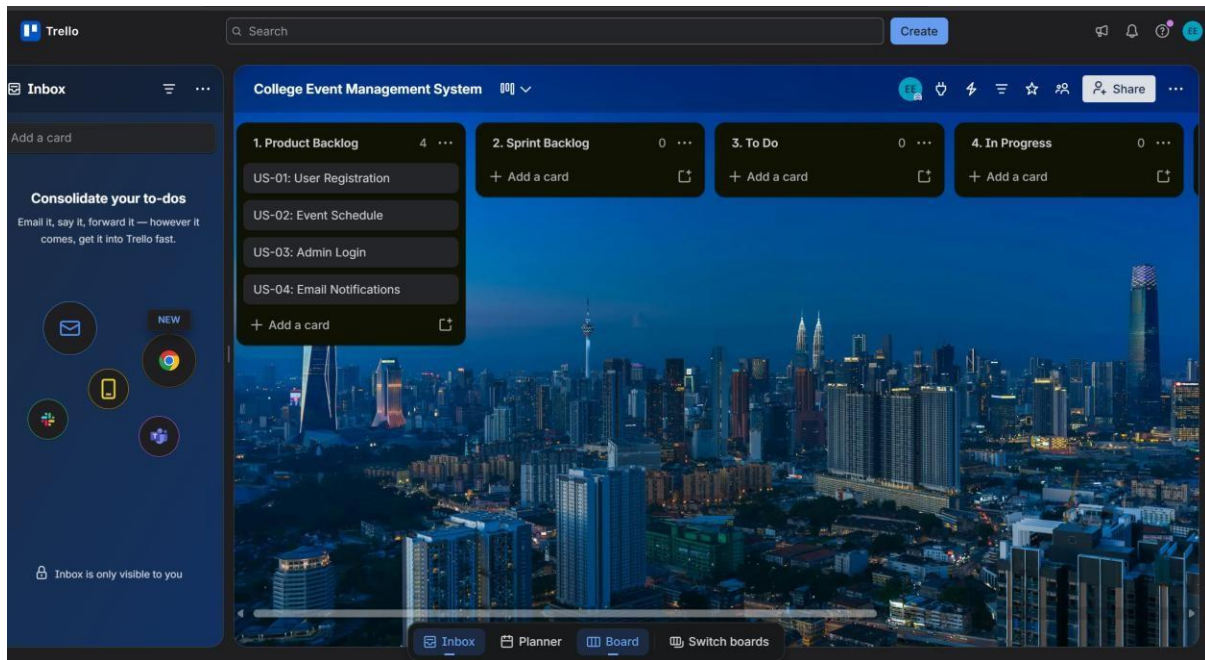

As an admin, I want to log in securely so that I can manage the event.

US-01: User Registration

As a participant, I want to receive confirmation emails after registration.

Drag Card (US) to product Backlogs)

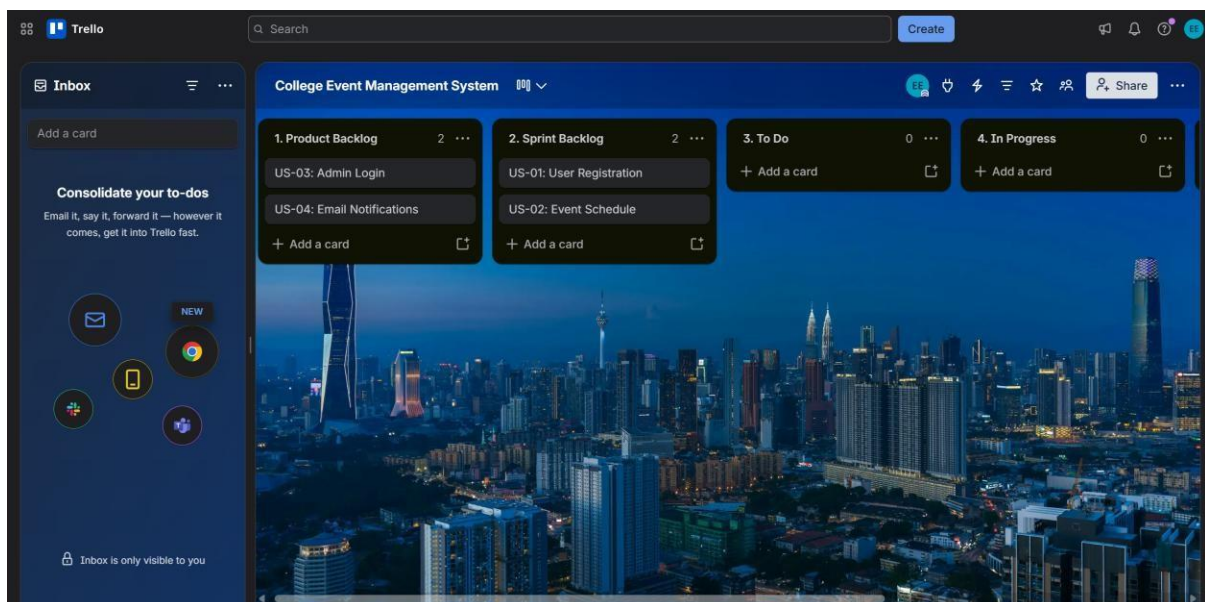

Step 7: Create Sprint 1

Drag these cards from Product Backlog to Sprint Backlog:

- US-01 User Registration
- US-02 Event Schedule

This means these features are selected for Sprint 1.

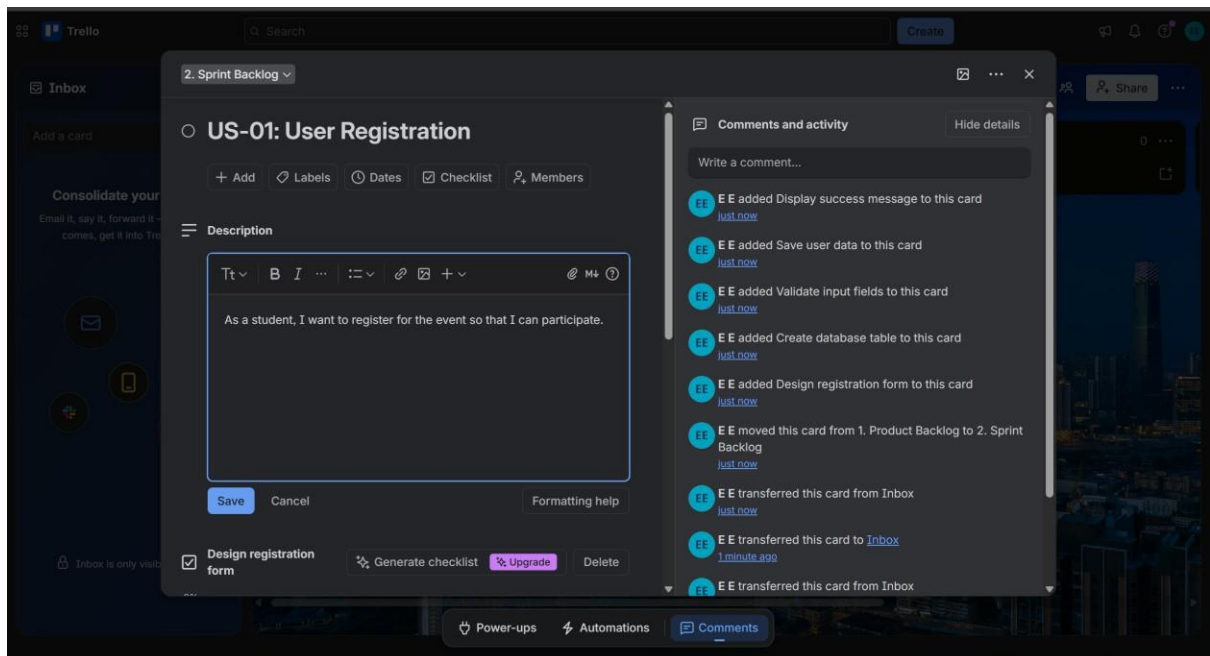

Step 8: Break a user story into tasks

Open US-01 User Registration and add a Checklist.

Checklist items

- ☒ Design registration form
- ☒ Create database table
- ☒ Validate input fields
- ☒ Save user data
- ☒ Display success message

You can even add all options which are needed

You can do similarly to all Agile workflow lists

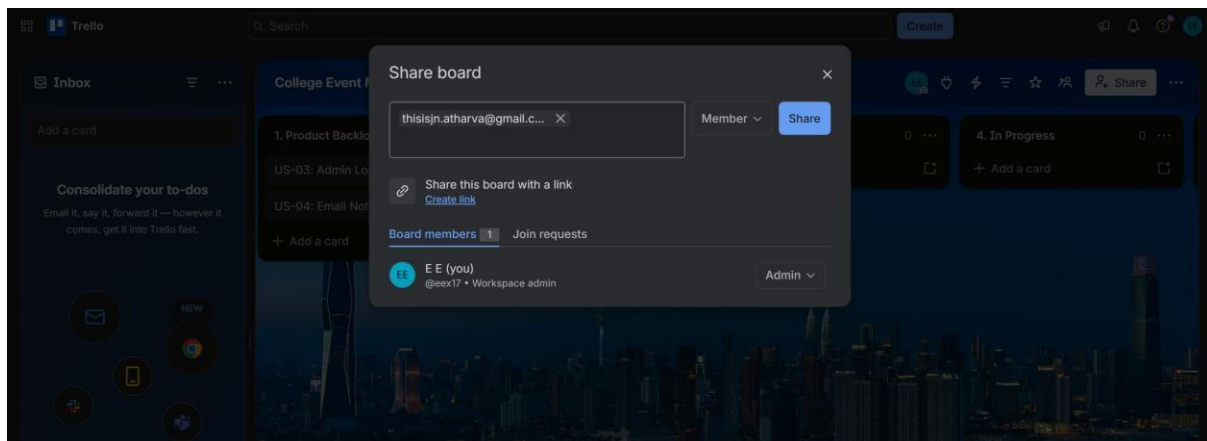

Step 9: Assign team members

Inside the card:

- Click Members.
- Add yourself.
- If you have classmates, invite them using Share → Invite.

Example

Task	Assigned To
Registration form	Archana
Database setup	Rahul
Validation	Sneha

Step 10: Add Labels (priority)

Create these labels:

Step 11: Set Due Dates

Inside the card:

- Click Dates.
- Select a due date (for example, 20 July 2026).
- Enable Reminder.

Step 12: Start the Sprint

Move cards through the workflow as work progresses.

Output:
